

Link Crew Funding Sources

Here's a list of ideas and resources to help you. Remember, the key to success is perseverance!

Finding Government Funds

Many schools have found success using federal and state grants/monies to start and support their Link Crew programs. We encourage you to research and look for funding opportunities using these funds:

GEAR UP – Gaining Early Awareness and Readiness for Undergraduate Programs

SIG – School Improvement Grants

SLC – Smaller Learning Community Grants

Title I - Grants to Local Educational Agencies, Improving the Academic Achievement of the Disadvantaged

TUPE - Tobacco Use Prevention Education

While Link Crew's primary focus is to successfully transition freshmen, it also acts as an enhancement and support to other schoolwide programs at your school. Ask about money that your school and/or district has dedicated to support the development of (but not limited to) the following:

PBIS – Positive Behavioral Interventions and Supports

RTI – Response to Intervention

Character Education

Anti-Bullying

AVID – Advancement Via Individual Determination Safe Schools, Healthy Students (sponsor: **SAMHSA**)

SEL – Social and Emotional Learning

School Improvement and Staff Development

There are often funds available for use in these two categories that can help bring Link Crew to your school.

Accreditation Process: Schools involved in the accreditation process find themselves needing to ameliorate deficiencies at their school that Link Crew can address including (but not limited to) purpose, governance, leadership, school climate, student learning and student connectedness.

Staff Development: The Link Crew Basic Training is designed to prepare staff members to implement and execute the program with excellence, but it also improves participants' overall educational leadership and instructional skills. 94% of all participants rank the Link Crew Basic Training as the best professional development experience they have ever had.

Other Options for Funding

Private Donations: It is not unusual for private companies or community organizations such as Rotary Club to support the local high school by paying for teachers to attend Link Crew training. We know of several schools that have successfully approached large and small local companies and asked them to be sponsors of the Link Crew program.

ASB/Student Council/Student Activities: Depending on your state and/or district, funds from your student government organization may be available to pay for and support Link Crew. Check with your Principal, Activities Director and/or Student Council Advisor to see if this is an option for you.

Parent Booster Organizations: Often, Link Crew is funded by parent organizations, such as PTAs, that are interested in and committed to creating a safe, welcoming and comfortable place for students. They are a great resource not to be overlooked.

Your Local Community Foundation: Many communities have foundations that pool money from donors in order to create grants that support the efforts of local organizations to improve the community. Contact yours!
